Thin ice season is here and it is up to the small boy to go slowly. Advice to the youngsters is this—when the tempter whispers about clamping on skates and just try the ice, turn your back on the old fellow and kick the football for a goal. Don't listen to the "wise boy," who thinks he knows it all. He is generally the one who goes under. A good rule is to ask father and mother.

The Ramblers were delightfully entertained at the home of Philip F. Stone, at a Hallowe'en party, Thursday evening, Oct. 29. The rooms were very tastefully decorated in orange and black, and very suggestive of Hallowe'en. At 7 o'clock the company was invited to the dining room, which was lighted by tall orange candles, and a delicious supper was served, after which games and music were enjoyed until a late hour when all departed, voting it one of their pleasantest gatherings.

A large quantity of sand and gravel for road making, has been hauled away from Mina Jewett's farm, formerly the Olcott Brown estate, east of Fair street. Much of the material has been taken from Indian point, so called, said to be a part of a camping ground used by tribes roaming up the Little Androscoggin from the falls at Lewiston, to the chain of ponds in Greenwood and Woodstock and connecting with the big river at the outlet of Mill brook in Bethel. The Indian Trail in South Paris, along the eastern bank of the Little Androscoggin, according to tradition, is intimately connected with the camp site. Some thirty years ago, two or three graves said to be of Indian origin were found in a sand pit not far from the camp ground.

We note that last week we gave credit to the Boston Post for the Whiting Column article, relating to Mellie Dunham, instead of the Boston Herald, where just credit belongs. We are extremely sorry the error happened and when we have the good fortune to reprint something more from the pen of Edward E. Whiting, through the Herald, as we have several times in the past, we will see credit is given where credit is due. Through the reprinting of the recent article, we learn how generally the Whiting Column in the Herald is being read. One man, who called in and commented on the article, said, "The Whiting Column is the first thing I read each day, as soon as I get the Boston Herald. Mr. Whiting is a prominent and wonderful writer and one of the foremost in his line."

Miss Emilie Davis leaves next week for Florida, where she will spend the winter.

Celebrated Seventieth Birthday

Mrs. Fannie Frost Enjoys the Day

Mrs. Fannie Eugenie Frost, Paris street, Norway, reached the seventieth milestone, on Thursday, Nov. 5. She received post cards and congratulations and the day passed without unusual demonstrations for she has many household duties to perform, and believes service is more essential than idleness, even on one's birthday.

Mrs. Frost was born in Norway, on a farm, in Sodom, the daughter of David and Louisa Holden, and one of thirteen children. When she was some ten years of age, her mother died, and the home was broken up. She lived with relatives, in Waterford and Otisfield, for a number of years, until her marriage to Arthur W. Frost, of Norway, in 1871, when they settled in this town. About the year 1896 they built the home on Paris street, where she now resides. Mr. Frost died on Nov. 16, 1907.

Eleven children were born to them, six of whom are living, Winslow A. Frost, of Auburn; Clifford C. Frost, Norway; E. Ray Frost, South Paris; Fannid, wife of Alfred G. Monk, Norway; Lucy, widow of Leon Dow, Norway, and Gladys, wife of Alton Noyes, Norway. There are sixteen grandchildren and five great-grandchildren.

At three different times, Mrs. Frost has taken into her home and cared for nine grandchildren, two of whom are with her. The latch string has ever been out, and her life unselfishly devoted to the family.

Mrs. Frost enjoyes good health, is alert, physically and mentally, and active in the household duties, with the assistance of her daughter, Mrs. Monk, who with her husband, and Mrs. Dow and children, make their home with her. She does considerable knitting and sewing and reads, as time permits. The Methodist denomination is her preference, and she has attended that church many years. Devotion to a large family, has kept her from social clubs, or lodges, for she believes her duty is in the home, where the family may always find her a busy body, for the comfort and happiness of all.

One has aptly said, "Life has been one of service, not only to her immediate family, but to all in need."

The following lines were written for the occasion, by her daughter, Mrs. Lucy Dow:

"Giveth flowers to the living
If you love them, tell them so."

Mother's Birthday

Mother lived seventy years today
Three full score years and ten,
And every one of those blessed hours
Of service to others has been.

Her children, now six, though eleven there were
And nine grandchildren she's helped to raise
Truly they shall rise up and bless her today,
Not enough can be said in her praise.

Mother's still cooking and knitting alway
For the sick, and the children small,
And the gruel, jelly, mittens and socks
Are her answers to love's own call.

Yes, this is the life that our Mother has lived,
Whose years number three score and ten,
God grant that our lives may as useful be
When our years have seventy been.

Unity Quartet Coming

RIDEOUT CLUB ACTIVE

The Rideout Club of the Congregational Church have been able to secure the Unity Male Quartet, of Boston, for a concert in the church on Nov. 18 and an advance sale of tickets is in progress.

They have been together a number of years and considered one of the best in New England, and established the high reputation that has created an unprecedented demand for their services. Music lovers are fortunate to have the privilege of listening to a program of rare excellence which they will render.

Friday night Elinor Bartlett entertained a party of girls at Bartlett's camp at Keewaydin Lake. The evening was well enjoyed by telling ghost stories, playing games, and readings were given by some of the girls. A delicious supper was served by Mrs. Bartlett. The party consisted of Elinor Bartlett, Ruth Holt, Ruth and Thelma Tracy, Lillian Decoteau, Mabel Foss, Dorothy Goodwin, Helen and Bernice Dullea, Althea Butters, Eldith Joslin, Lucy and Phoebe Cobb.

Mr. and Mrs. Reginald Dinsmore have gone to Miami, Fla., for the winter, and are traveling in their automobile. Capt. Mel Sampson, who is Reggie's hunting mate is bewailing the fact that the woodcock have all followed them South, leaving only rabbits for small game.

Miss Jessie Everett went to Boston, on business Thursday, and returned Sunday.

Mrs. Emma A. Files and Mr. and Mrs. Guy Miller of Quincy, Mass., have been visiting Mrs. Elizabeth J. Andrews and other relatives and friends the past week.

The men of the Congregational Church met at the Swett store Wednesday evening. It was voted to change the name of the Wednesday Night Club to the Rideout Club. The same officers as last year were chosen: President, L. F. Pike; secretary, R. S. Osgood, and treasurer, E. N. Swett. The advertising committee is S. O. Jellerson, R. S. Osgood and E. N. Swett, and the athletic committee, George Lord, S. O. Jellerson and O. B. Tracy. It was the sentiment of the gathering to meet Thursday evenings for a social evening, and once a month at the Gym.

Pool Swept, Pictures Made

Many Visitors Present

Tuesday was a perfect day, and the Raymond Salmon Pool gave 1172 salmon to the sweeper. Some of the largest, weighed a dozen pounds. Many people were there to see the fish and hear the click of the moving picture machines.

We noticed from Norway, Bob Seavey and Tony Young, of the Beals' Tavern. Will H. Rowe, of the Cold Springs Hatchery, of West Buxton, president of the Cumberland County Fish and Game Association, who counts the young salmon, when returned to Sebago water, and thus keeps peace between that association and the state.

Hiram Ricker, of the Poland Springs, was an interested spectator, and several hundred others, including John Walker, of Harrison, and Alvah P. Ricker, 86, and daughter, Miss Josephine, and Frank Ricker, 92 years old, and of that town. These are the Rickers who won fame and wealth by making the best saw-mill machinery of the world, in Harrison, for the past fifty years.

E. F. Van Dusen and wife and Bob Plummer, were spectators. Somehow we are jealous of the first mentioned, as we saw him catch three salmon last September, and no one else get a fish. It may be the fish are kindly disposed to him for buying a home in Raymond, and becoming a half year citizen of Maine. We do know, he got the fish anyway.

The hatchery has been enlarged the past year, by the addition of several "growing pens." These are of cement construction. Roofs are to be put over them to keep the snow out. It about doubles the capacity of the hatchery.

Commissioner W. E. Parsons and some of his wardens were here. Geo. Libby, the local superintendent, posed for his picture so many times, with other work, he must have been tired out 'ere night came and the crowds left.

We made two visits to the hatchery that day. On our first trip we took along: Capt. M. W. Sampson, Chief Guide and Postmaster, I. W. Waite, of Middledam, Chas H. Sargent, W. A. Bicknell, dynamite merchant and fur buyer, with Geo. S. Noyes, artist and author, all of Norway. Some load of local notables!

Our second trip was made for the benefit of Don C. Seitz, of New York, who understands fishing about the same as he does farming. He takes a lively interest in both. He has had more experience in tilling the soil, than fishing, but next year he plans to farm less and fish more, so as to even up the diversion.

Neal Harlow of Dixfield pleaded not guilty to the charge of drunken driving, but was found guilty and fined $100 and costs, and thirty days in jail. Sentence was suspended during good behavior. Deputy W. L. Buck was the complainant.

Joseph McDonald of Gray pleaded guilty of trapping in Newry with unmarked traps. He paid a fine of $5 and costs. Philip Arsenault of Newry pleaded guilty of trapping without a license and paid the costs and $10. Deputy sheriff H. F. Bennett of Bethel was complainant in both cases.

INTERESTING RESPONSE TO LETTER

A short time ago we sent out a letter to one of our town correspondents, whom we had not heard from very regularly of late, but who has been a good correspondent from her locality, and we missed the news. In reply, the following interesting explanatory letter was received:

Dear Sir—I realize it has been a long time between drinks, but guess you don't realize what a time I am having this fall with housebuilding, company, housework, butter making, etc. I have been quite busy for an old lady, but I will try and do better in the future, unless they kill me outright. If I don't get time to send in the news, I will send in some money, for I want the Advertiser, sure."

BOWLING

Norway Lions 1385; Oxford Bears 1316

The Norway Lions roared at Parrin's Alleys, Monday evening, with a noise that shattered the strong nerves of the Bear family from Oxford. Somehow, the Bears failed to get a start on the Lions, and fell behind in every string, losing the battle, with a shortage of 69 pins.

Lawrence Descoteau and Paul Boynton went into a tie for first place on the grand total, with Baxter on easy street for second position. Descoteau also led with the highest single total, at 119, with Boynton creeping into the 108 class.

Baxter lead the Bears with the highest average, the biggest total and largest single string. Breton and Henry Vancourt found the lowest step, with the big Bear, "Stub" Fuller, and the Lion Greenleaf just a few notches above.

Another game will be played next Monday, when the Bears hope to take a half hitch in the Loin's tail.

Following is the summary:

Peck's Minstrels and Revue

B. Peck's Minstrel Maids and Fashion Revue, of Lewiston, made a grand entry into town, about 6.30, Monday evening, with banners flying and lots of red fire, to illuminate gorgeous costumes. The paraders, led by the Norway-Paris Band, marched up Main street, to the Opera House, where a show was given at 8.15.

The entertainment was a regulation minstrel first part, featuring colorful and glistening costumes, a fine drapery setting, and good soloists. Six end men, or more properly, end women, dressed like men, flanked a circle of seventeen women, with a large chorus of girls, on an elevation in the background. "Betty Lee," Peck's Personal Shopper, but off stage known as Bessie Pottle Thomas, formerly of Norway, was the pleasing interlocutor, possessing the ease and grace, displayed in her dramatic work, while attending, Norway High School. An attractive setting was made with draperies, producing a color scheme, of black and gold, with garlands of white roses over black, for a background.

All of the soloists were good and the ends kept the fun going with typical songs and novelties.

The fashion show was sandwiched between the song numbers and living fashion models displayed to advantage the latest dresses and garments. Local models were Misses Eldith Joslin, Bessie Klain, Ruth Akers, Wilma Thomas, Phyllis Glidden, Nina Emerson and Master Harlow Adkins. Models from the Peck store also appeared.

Joseph R. Ross, staged, costumed and coached the production. Shaw's Orchestra accompanied the singers and played for a dance after the show. The visitors appeared to be enjoying the evening, and had a merry time until a late hour.

On Friday, Nov. 6, the senior girls' basket ball team will play the sophomore's team, and the juniors will play the freshman team, in the high school gymnasium. The first game is at 8 o'clock. A small admission will be charged with which to purchase a cup for the winning team, which will be presented at the close of the series.

At general assembly, Wednesday morning, Miss Marguerite Pearman, assistant pastor of the First Universalist Church, spoke to the students. She said that lives as shaped and lived in high school days would be criteria for lives as citizens of the community in later years, and emphasized such point as co-operation, team work, sportsmanship, and absolute honesty. Her talk was helpful, and was very much appreciated.

Agricultural Class

Projects are being checked up and new projects are being arranged for the coming year.

On Tuesday, the freshmen had a field trip to Pride's field to study the formation and different types of soil. A critical study of samples was made in the class room after the return.

The freshmen are preparing for the Thanksgiving market and carrying out a fattening project for poultry. Students purchase the birds and feed, mix the rations, build pens and attend to the feeding. When the time arrives, they will dress and market the fowl.

Aggies commenced basket ball practice at the end of the football season. This year there are eight "Aggies" on the varsity football team and the classes will contribute at least four players for the first string in the high school basket ball outfit. Three others from this department will play subs.

Edward H. Brown, the instructor, has selected seventy-five hens from Robert Schenk's flocks on Pike Hill, for production. The remainder will go to market for Thanksgiving dinners.

Shop work this week has included, among other things, making double windows for cellars. Frames have been constructed according to definite measurements and the glass set properly.

Sophomores and Juniors are judging horses this week. They will have practical experience at the Andrews Sale Stable, where they have permission to examine and score the next carload of horses.

It is possible that the students may have lively sociables during the winter. Bringing all together for a season of fun has proved successful in the past. The meetings also have proved instructive for a short session with original papers and discussions have preceeded the games.

Alonzo Hall, who underwent an operation at his home, for the amputation of a toe, and is getting on nicely.

The regular meeting of the Rebekahs will be held Friday evening, followed by a buffet lunch. Those not solicited are expected to carry a plate of refreshments.

On Friday morning, Oct. 30, the water in the bog froze one and one-half inches from the boat house to the bridge, the first time the water has frozen as early as this in the memory of any around.

Lewis R. Buswell of Pittsfield, N. H., spent the week end with his parents, Mr. and Mrs. Charles Buswell.

The bog below Crockett's Bridge was frozen over Monday morning. Muzzy Judkins, speaking about the first ice, said, "In the good old days I have crawled out on thin ice and landed pickerel. The fish could be seen under the ice and one blow of a club would lay 'em out. We would get from a dozen to twenty in a short time. Now the pace is closed to ice fishing."

Mr. and Mrs. Alexander MacLean have closed their camp at the lake and are in Boston for the winter.

Mr. and Mrs. Burton W. Shaw have gone to Auburn to reside. Some days before their departure they were guests of honor at a party given at Camp Cinnamon, by the Couple Club. A steak supper was served and Miss Mildred Curtis provided original verses for the occasion. Ralph C. Andrews, on behalf of the Club, presented a silver trivet to Mr. and Mrs. Shaw. Those in the party were Mr. and Mrs. Elmer Packard, Mr. and Mrs. Edward A. Luck, Mr. and Mrs. Donald J. Andrews, Mr. and Mrs. Ralph C. Andrews, Mr. and Mrs. Scott Kilborn, Mr. and Mrs. Paul Hosmer, Mr. and Mrs. B. W. Shaw, and Miss Mildred Curtis.

Results That Last!

Proven by Norway People

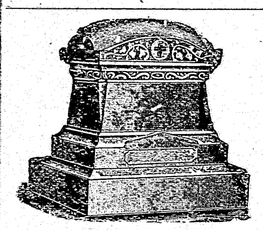

Thousands of kidney sufferers have tried remedy after remedy with only temporary benefit. That's mighty discouraging! But one kidney remedy has earned a reputation for lasting results and there's plenty of proof right here in Norway.

Read the experience of one who used Doan's Pills years ago and now makes her endorsement even stronger.

Mrs. W. J. Olmstead, 95 Main St., Norway, says, "My back ached so badly I could hardly get through with my housework. My feet and ankles swelled and I had dizzy spells when little spots came before my eyes. My kidneys were weak. After using four boxes of Doan's Pills, backache ceased and my kidneys became regulated."

The above statement was given Sept. 20, 1920, and on July 15, 1925, Mrs. Olmstead said, "The cure Doan's Pills gave me has lasted."

BATES—WEST PARIS

Are We Living In Our Community Or For It?

If we are living in it, we are just living here and complaining how much we have to pay for taxes and about the poor roads.

If we are living for our community, we are not complaining about taxes and poor roads, but are trying all we can to help it.

If a man complained all the time about his taxes and rent and was always finding fault in everything, would this help our community? It would not.

Another man might be even poorer than the first man and he also had taxes and rent to pay, but did not complain but tried to be cheerful with everyone and everything. Would this help our community? It would.

Are you living in your community or for it?

—Helen Stevens, Grade 8.

KEEPS THE HOME FIRES BURNING

Radio has become almost a household requisite. Nothing has done more to promote the home-loving instinct than the ever growing popularity of this great pleasure-giving and educational invention. From this, one may fairly reason that wherever the installing of radio sets is on the increase, the home-loving instinct is certainly not on the wane. And, since the broadcast program is essentially a thing to be enjoyed by the family circle, it is to the family circle the radio will cater. Seldom has the human demand for novel entertainment found so admirable a combination. As the call for more radio service grows, so also grows the attraction of the home. And as the attraction of the home becomes stronger, so the call for better broadcast programs becomes more insistent.

Everything tends to make the radio influence a wellspring of good. So excellent a caterer to all that is most desirable in promoting true human happiness certainly deserves the very best of the public to whom it ministers.

HILLS OF MAINE

Lofty, cloud-capped, rock-bound mountains,
Bold ye tower in gradeur high,
Till your bristling pine tree summits
Seen to touch the sunny sky.
Hills and vales; ah, how I love you!
Love the sound of every name
That each granite dome is christened,
In the dear old State of Maine!

How sublime, how full of wonder,
Are the marble piles of art!
Yet in nature how much greater,
God's grand works, feed soul and heart!
Changing seasons, sun and shadow,
Bring their buds and blooms again—
But the mountains stand forever,
Their great strength will e'er remain.

Ah, what preachers are the mountains!
Ah, what sermons, day by day!
And we need no written logic,
To decipher what they say.
Grand majestic, testifying,
In each rock and grain of sand,
That like time, they're everlasting,
Built and fashioned by His hand.

And the music of your brooklets
Rippling o'er cool beds of green,
Brings a soothing charm and restful,
Like none other heard, I ween.
Fond I cherish and revere you;
And linked firm in memory's chain,
Are the glens and dense deep wild woods,
Of the dear old State of Maine.

Resting in their quiet beauty,
Are the crystal lakelets blue,
Mirroring in their sheeny waters,
Thy tall peaks, each form and hue,
How I long to reach and clasp you!
See your faces once again,
Rearing proud your heads so hoary,
Oh, ye mountains dear, of Maine!

I can see you, when in Autumn
Gauzy veils of haze are hung
O'er your scarred and rough-hewn boulders,
Till the hills and skies are, one;
And the brilliant bow of promise
Would indeed be dim and pale,
Seen beside the gorgeous colors,
Painted over mount and plain.

I can see you when the sunset
Sheds a golden glory round
And amidst the twilight shadows,
Reigns a stillness, deep, profound;
And your forms so kingly regal
Stand like battlements on high,
Fit to be a nation's stronghold—
"God's free Hills," the battle cry.

When life's last sunset is fading,
And the mists are cold and gray,
Leave me near those cloud-capped summits,
Let their shadows o'er me lay!
And methinks, from out the silence,
I could hear the sweet refrain
Of the pine tree's low, soft sighing,
From the dear old Hills of Maine.

OAK AND IVY

By Morrill N. Packard

In the years of long ago
In the land of Dirigo
Near to Penn'sseewassee lake
In a growth of shrub and brake
Lived an oak in prime of life
Conquerer in forest strife.
By the oak an ivy grew
Modestly and sweet to view,
Now the oak had sympthy
For the ivy's infancy
And the ivy seeming rude
Hugged the oak in gratitude.
And so grew in friendship rare
Till the trunk of oak was fair
From the ground to larcer limb
With entwining ivy trim.
Long the picture held in mind
Oak by ivy still entwined;
Leafless, sketched on Winter's sky,
Swaying, torn by tempests high;
Drest in robes the ivy weaves;
Crowned with self adorning leaves;
Massive strength in beauty shown
By the oak for ages grown;
Clinging ivy lending grace
To the oak's engaging face.
Monarch crowned in forest ken,
Reigning queen in meadow fen.
Longing much the twain to see
And in great expectancy,
Yesterday, I passed that way
On a witching summer day;
But, alas, a picture new
By the years was brought to view;
Crownless now with branches bare
Bleaching white in sunshine glare
Stood the oak a skeleton
Undisturbed by storms or sun,
And the ivy beautiful
In requiting kindness full
Sensing failing strength of oak
Tried to check the pending stroke
By inciting latent force
To resist the fateful course;
Dressed the trunk with closer leaves;
Wound the limbs with ivy wreaths;
Gathered evening drops of dew
For the oak the midday through;
Tempered cold and heat and storm
To the oak's denuding form;
Herself put on gala dress
To conceal intent distress;
But the law of life prevailed
And the ivy's care had failed.
So in memory, perchance,
Of the forest life romance
The endearing ivy decked
Lifeless oaken figure recked
With a gown of tinted green
And a crown of ivy sheen.
So the thought I gained today
From the oak and ivy way
Thrilled my soul with beauty taught
In the manner good is wrought
By the strong with plentitude
By the weak with gratitude.

LOOK BEFORE YOU CROSS

Drivers of automobiles should be doubly cautious in crossing railroad tracks where the highway parallels the railroad. No railroad crossing should be crossed without looking in both directions and it is particularly necessary to safety that this be done when crossing where railroad and highway parallel each other.

Carelessness on the part of the driver at such crossings is attended by great danger. Bear in mind that gears should not be shifted on or near the track. Many machines stall when shifting gears. If necessary to shift gears, do so not less than 75 feet from track, then look in both directions before crossing.

A railroad crossing is dangerous only when made so by careless driving. No prudent person would run over a red light in the highway for it is there as a warning, yet motorists frequently not only run over a crossing flagman and break down crossing gates, warning them of an approaching train, but with scarcely less frequency run into a train from one to five cars back of the engine, and then ask taxpayers to tax themselves for grade changes to eliminate the danger, when the danger is not in the crossing, but in the driver.

RADIO HIGHWAYS PROPOSED

The radio millenium, a world of night devoid of static, interference and fading, has not arrived—yet. But radio scientists, engineers and the operators of large broadcasting stations are moving forward with what they hope will be an acceptable substitute, in the form of a nation-wide hook up of a series of superpower stations and the broadcasting of better balanced programs.

The problem of eliminating static, interference and fading is theoretical, but that of better programs is practical and immediate, said David Sarnoff in a discussion of the technical and popular trend of radio.

"I have held that the problem of national broadcasting facilities can best be met by a system of high power stations to form the main highway of the air, supplemented and supported by existing local stations and local service."

For the present, the centralized agency that must and will eventually be formed to undertake systematized distribution of national and international radio programs is receiving the earnest study of Mr. Sarnoff and the men associated with him in the conduct of the radio industry.

Genius seems to be something exceptionally bright in on one or two propositions, and foolish in all other things.

Prosecuting Drunken Drivers

"Why are not more drunken drivers of automobiles convicted and sent to jail?" is the query which the Automobile Law Association propounds. The answer is of course a simple one. Lack of proper evidence. The layman does not realize that this is a very important feature of criminal proceedings. Every respondent has the constitutional right to be confronted by his accusers and to a trial by a jury of his peers.

A good many officers in making an arrest, fail to use their judgment, or else they have no judgment to use. The law is of course specific and includes in its provisions, not only the intoxicated but he, who "is at all under the influence of intoxicating liquor, or drugs."

Yet in construing this law a good many judges draw a fine line of demarcation. Few courts and fewer juries will convict a man of driving while drunk just because there is a faint odor of drink about his person. They insist that a man to be found guilty must show some marked signs of intoxication and a "breath" is not sufficient to convict either in the lower court or before a jury. If more officers would be more painstaking in their gathering of evidence, the courts would not be clogged with so many cases that would fail of conviction.

Then again another reason for the lack of conviction is that the arrested man is not given a jury trial sometimes until months after the offence for which he had been arrested was committed. The result is that the witnesses to the affair have scattered to the four winds and the court officials are obliged to nol pross the case for lack of sufficient evidence to warrant a trial.

Nobody has a particle of sympathy for a man who will attempt to operate a motor vehicle while he is drunk, but many cases savor very strongly of persecution and a catering to public sentiment, neither of which should ever play any part in the administration of justice.

The model officer is the one who takes them just as they come, be they high or be they low, and never starts anything which cannot be finished.

Road commissioner, Charles Saunders, has completed the third class road for this year. The strip reaches from Will Bryan's place on the hill, down through the woods, where the road has been straightened, over Day's brook, where a fill was made to widen the bridge. The strip through the woods has been very narrow and bad for some time, so the people in this vicinity can fully appreciate the wide smooth road which now takes its place.

OTISFIELD

Carl E. Peaco

The death of Carl E. Peaco occurred in Auburn, at Dr. Cobb's Hospital, from blood poisoning following an attack of tonsilitis, Sunday, November 1.

He was taken ill at his home about 3 weeks ago, although he worked two days and his temperature rose to 106. His condition grew so critical that he was rushed to the hospital, where the pus was removed from his face, but the infection from the throat was of such a virulent nature that his whole system was infected. He died in four days after he entered the hospital. He had suffered from sore throat several times in the last few years.

He was the son of Mr. and Mrs. Ernest Peaco of Otisfield. He was 20 years of age and a graduate of Oxford High School, and was a great help to his parents, who held him in great love and esteem, and did all in their power to make his last hours comfortable.

A SERMON THAT IMPRESSED ME

I was much impressed lately, while reading a book about bees, by a statement made by A. I. Root, an accepted authority. This worthy old veteran says the greatest enemies of the bee business are agents, propagandists, "pep" gentlemen, "live wires" etc.

Mr. Root says that so far as his experience goes, patent-hive men are worse enemies of the bee business than ants, bee-moths, birds, mice, parasites, wasps, toads and skunks.

All the natural enemies of the bee are here enumerated by a practical man, and then he declares that men with short cuts to prosperity are more harmful than all the natural enemies combined. Mr. Root further says he does not know a single patented feature of bee hives and implements (and there are hundreds of them) that would come into general use if the patent were removed.

And then Mr. Root makes the strongest statement of all. "We have little to fear," he says, "from natural enemies of the bee, and it is an easy task to keep them down, but from unprincipled men we have much to fear."

Life is much like the bee business. Its natural ills may usually be met and overcome, but we have much to fear from agents with patent contrivances for making it easier. One of the most pitiful stories in print today concerns the great amount of money wasted every day on short cuts to fortune. Perhaps a third or half our savings are lost in foolish investments. Agents have become so numerous that they are a pronounced nuisance, and most of their schemes are dangerous;

In Miami, Florida, eighteen agents were arrested lately in an hour, for street soliciting, and the police believed all of them to be dishonest men.

It is becoming nearly that bad in every other part of the country.

And when busy men are not asked by impudent agents to make worthless investments they are asked by impudent collectors to make donations to worthless causes.

Meanwhile those who attend to their business naturally, as the bees do, prosper in the United States as nowhere else;

Those who feed their land, instead of feeding agents; those who improve their own premises, instead of the premises of others, and work hard and behave, have no trouble in getting along, particularly if they mix a little common sense with their industry.

There is a very good moral in this reference to the bee business by A. I. Root, a worthy and intelligent man who became an accepted authority in the profession.

Mr. Root's sermon greatly impressed me, and I here attempt to pass it on; in the future agents will find me less easy.

ARE YOU A CAPITALIST?

Everybody who works and saves something and builds a home or lends his savings to some industry to be used in production is a capitalist. A member of labor organizations which have banks and other assets is a capitalist. Every individual who has a savings account is a capitalist. The greater the supply of capital, the greater will be the demand for labor to make use of that capital.

"If capital is scarce and timid, the demand for labor is less," says Chas. H. Carson of the American Bankers' Association. "The more productive capital there is, and the more it seeks to be used, the more authority does labor exercis in its demand for wages."

A GOOD BULL STORY

A traveling man with torn clothes and a crushed hat sat in a country hotel expounding upon the necessity of compulsory automobile liability insurance maintained by the state to protect the public from damage done by automobiles. His clothes had been torn, his car wrecked and his life endangered by a driver with no assets.

A farmer in the corner grocery store, with a bloody nose and a broken buggy whip in his hand, was cussing his neighbor Jones for allowing a bull to run loose on the highway to frighten his team, cause a runaway, upset his load of berries and nearly kill him.

Jones was financially irresponsible but nobody thought of suggesting a law that all owners of bulls should be required to carry compulsory state liability insurance to protect the public from the dangers of such animals. Yet hardly a day passes that one does not read of some person or animal being gored to death by an enraged bull.

Our present laws provide for collecting damages from people whose acts cause injury or loss to others. If persons who are liable are financially insolvent the injured party cannot secure compensation. The same law applies to automobile accidents as to bull accidents or to any other kind of accidents.

Why should the automobile owner be made an exception to the rule in regard to compulsory automobile insurance in order to provide against a possible insolvent driver? Why should the state be put into the business of insurer? The whole proceeding is just another step toward socialism. People thoughtlessly argue in favor of this type of compulsory insurance supported by a state fund, who would not for a minute consider such a proposition if they understood it in all its ramifications. The traveling man and the bull story are everyday examples.

Mrs. Perley Russell was hostess at the Neighborly Nine Club, Monday afternoon, Oct. 26. The time was devoted to needlework and sociability.

Mrs. Roy Stearns won. The members found that about forty different words could be made. Then the guests were invited to the dining room to a delicious lunch of sandwiches, fancy crackers and cookies, sugared raisins and coffee. Hallowe'en favors were used at each place and surprises were found.

Where Trouble Starts

Just a few words for the women! As a rule, women are expected to keep house and their person neat and tidy at all times, regardless of what work they have to perform.

Farmers expect their wives to look just as neat and trim as do the city women that have very little work to perform. If it were not for the hard work many women are obliged to do, especially in the farm house, they might find time to keep primped up all the time. Only for the help of a prudent wife many a man would have become bankrupt long ago. Still it's the man that as a rule gets the credit of managing the farm and business well, when in reality it's the patient frugal wife that should have the credit. Some men expect their wives to keep dolled up for their benefit, no matter how much they have to do. When hubby comes home he must be met with a smile and a hearty welcome home. Much has been said (this is for the men) from time to time about women driving their husbands from home, etc., by being untidy and slack in personal appearance.

A woman must be always attractively attired as she did before marriage in order to keep the affections of her leige lord. But what about the men? Are they as particular about their personal appearance as they were when lovers? Nay. Verily no. They come home tired from their day's work and throw hat and coat down for their wives to hang up and are cross and grouty if supper happens to be a little late and will snap and snarl at their wives when often times the wives' day has been passed with drudgery and trials. It's just as much a man's duty to keep sweet and prim for his wife as it is for the wife to do the same for him.

Many a man will wear a smiling face and speak kind and lovingly to other women who seldom speak gently to their wives in the home.

RESOLUTIONS OF RESPECT

Waterford Grange, No. 479

Whereas it has pleased the Great Husbandman of the Universe to remove our brother, Linwood A. Flint, from the fields below to the boundless fields above:
Resolved, that while we bow in humble submission to an all-wise and kindly father, we record our sorrow and deep sense of bereavement in the loss of our brother, whom long acquaintance and intimate association had taught us to love, honor and respect as a friend, a patron, and a man.
Resolved, that Waterford Grange has sustained an irreparable loss and the community loses an active and forceful citizen, whose kindness of heart, sympathetic nature, and cheerful spirit was constantly expressed in deeds of charity, helpful suggestion and words of social joy.
Resolved, that this letter of love and respect be made a part of our record and be printed in the Norway Advertiser, also that a copy be sent to his brother, sister and uncle; may it comfort them to know that he rests in the loving memory of Waterford Grange.
GEORGE L. KIMBALL,
MARILLA J. MARSTON,
ANNIE B. HAZELTON,
Committee on Resolutions.

RESOLUTIONS OF RESPECT

Whereas, our Heavenly Father has seen fit to take from our midst our beloved sister, Nellie C. McAllister, we can but realize that she has passed through that which we all must pass ere we enter that Paradise not made with hands, eternal in the Heavens.
Resolved, that in the death of Sister McAllister, Suncook Grange, No. 140, has lost a true and faithful member, one ever ready to help in word or deed.
Resolved, that this testimonial of our sympathy be sent to the son and family, a copy placed on the Grange records, one to the Norway Advertiser for publication, and our Charter draped for thirty days.

BLANCHE HAMILTON,
MARTHA KIMBALL,

C. W. C. OUTING

The C. W. Class of the Congregational church, under the guardianship of Mrs. Harrriet Brown, enjoyed a camping trip from Wednesday night until Friday night at Bartlett's Island camp on Lake Keewaydin, Stoneham. Taps were sung at ten o'clock, Wednesday night. About eleven o'clock there was a little excitement when a bed with six girls in it broke and Miss Dorothy Anderson had a very serious cramp. From two-thirty until daylight four girls, unable to sleep, got up and kept the fires burning.
Thursday everyone was feeling fine and the day soon passed with the help of a victrola which was kept busy all day and most of the night. That night sixteen of the girls went to a church supper at the village, returning to camp soon after without meeting a bear or wild cat, though some were rather afraid we would.
Thursday night passed without mishap except that it was very cold. Friday three girls followed the shore line around the lake a distance of about four miles over rocks and through swamps. Soon after dinner eight girls came home and the remaining ones were left to break up camp and come a little later. A new acquaintance was made at this time and something discovered. The following girls went on the pleasant trip with Mrs. Harriet Brown, the very patient teacher:

Evelyn Saleeby	Lenise Cummings
Hilda Stineford	Irene Nevers
Marguerite Stineford	Muriel Sloan
Kathryn Richardson	Grace McAllister
Marjorie Canwell	Alice Dyer
Dorothy Anderson	Alice Brown
Florence Edwards	Sarah Thurston
Clara Edwards	Catherine Longley
Evelyn Gilman	

The Red Cross drive is nearly ready to launch. Mrs. Elon Brown is chairman of the committee, comprising of Edward H. Brown, Laurence Denison, Mrs. Victorine Blanchard and Miss Adeline DeCoster, that will have charge of the work of securing a large membership in Norway. High school pupils will have a part in the canvass, beginning Nov. 13, and be assigned to proscribed districts, or zones, so that no family may be overlooked. Payments may be made to Eliot A. Fuller, chairman of the executive committee, or to Ralph Andrews, treasurer.
Mr. and Mrs. Aurie Johnson of Syracuse, N. Y., were guests of honor at a Hallowe'en reception recently in the home of the president of the City Bank Trust Co. Mr. Johnson is employed at the bank and a large group of friends were invited to enjoy the evening and become better acquainted. A turkey dinner was served and a large cake was cut and distributed. Mr. and Mrs. Johnson received a valuable gift. Mrs. Johnson was formerly Doris Longley and the daughter of Mr. and Mrs. Leon Longley of this town.
The ladies of the local Farm Bureau, held an interesting all day session, Thursday, at Grange Hall, with the home demonstration agent directing. The subject for study was correct footwear. A picture was taken of every foot, and troubles were explained and methods advised for corrections. A fine fish chowder was prepared for dinner, by Viola Abbott and Mrs. Beatrice Tucker. The attendance was large, and several of the husbands were present for dinner. The November meeting will be held the 20th, at Norway Lake Mothers' Club Hall. The subject will be Christmas suggestions and apron patterns. All are planning to attend the annual meeting at South Paris Grange Hall.
Time was, until recently, that people could go through Ordway's grove and the surrounding woods and fell safe, but these days one takes his life in his hands, as firearms are used freely through the grove. Several Norway ladies were in the grove this week, and five boys with rifles were shooting squirrels and anything they could see. They hollered so the boys would know there were people about, but they paid no attention. Perhaps if Don Seitz knew the condition he would have the law forbidding hunting in the woods enforced again.
About fifty Methodist people accepted the invitation from Mr. and Mrs. Grant Abbott to spend a pleasant evening at their home, Friday night. The rooms were attractively decorated with Hallowe'en colors and emblems. A fine oyster stew with many other appetizing things were served soon after their arrival. Mrs. Elizabeth Joslin, Mrs. George Smith, Mrs. Myrtie Morgan and Mrs. Frances Lasselle were in charge of the supper. A pleasant evening, with games and stunts following, was enjoyed until a late hour. This annual affair is always a red letter day in the Methodist circles and the hospitality of the Abbots is well known.
Mrs. Alice Marston will entertain the Barton Reading Club, Thursday afternoon, at her home in the Noyes Block, Maine and Deering streets. Subject for study will be current events.
George P. Locke visited at his home over the week end. Mrs. Locke is still with her daughter, Mrs. Marjorie Chamberlain, who is still confined to her bed. Her rheumatism has practicaly left, her heart remains very weak.
Mr. and Mrs. Percy H. Nevers and Mr. and Mrs. Leslie McAllister and daughter Margaret, called on Mrs. Nevers' and Mrs. McAllister's mother, at East Stoneham. When on their way home, in the evening, they saw ahead of them, in the road, near the McWain factory, a large buck, which stood still and looked at them for more than a minute.
Miss Marguerite Pearman occupied the pulpit at the West Paris Universalist Church, Sunday, in the absence of the pastor, Miss Forbes.
Mount Rebekah Lodge observed Children's Night, Friday, Oct. 30, from four to eight o'clock. About 35 of the young people were present, and had a jolly time getting acquainted and playing games. Attractive refreshments were served in charge of Mrs. Harriet Brown, Mrs. Rose Everett and Mrs. Eva Frost. Mrs. Minnie Herrick and Mrs. Ruth Greenleaf arranged the program. Several of the children gave recitations.
Mrs. Bertha Noyes has returned home from her trip of inspection for the Maine Daughters of Veterans.
The Tubbs-Noble hunting party arrived home Friday evening, after breaking camp a week earlier than they planned, owing to the cold weather. They left Norway, Sunday Morning, and went to Errol by auto, then in a rowboat, crossed the Androscoggin and Umbagag Lake, went up Rapid River, a six mile row. They were towed two miles. Deer were plenty, and they secured a ten point buck, weighing 200 pounds, a doe and a spike horn. Bear tracks were evident, two bears crossing Rapid River in a night. Birds and squirrels were very scarce.
After working 13 years in the employ of C. F. Ridlon, as bookkeeper and clerk, Maford Mann has finished his labors there.
After spending several months with her sister, Mrs. Fred A. Lovejoy and family, Mrs. Eleanora Keene returned to her home in Bristol, N. H. Her daughter and husband, Mr. and Mrs. Harold Thayer, came for her.
Mr. and Mrs. Vivian Hills recently entertained Mr. and Mrs. Leon Benner, Waldoboro, as week end guests.
Ashley Edwards had a week's vacation from the C. F. Ridlon store, which he enjoyed around home and short trips about the country.

The Union Thanksgiving service this year will be held at the Methodist church, on the evening of Nov. 22. Rev. G. Howard Newton, of the Baptist Church will preach. Pastors from South Paris will have a part in the services. On Nov. 25, the Norway ministers will assist in the services at South Paris.

Oxford County Fruit Show

SECOND ANNUAL EXHIBITION

The second annual exhibition of Oxford County fruit opened Wednesday, at Association Hall, South Paris, and will continue until Friday evening. This show is under the auspices of the Oxford County Farm Bureau, backed by the business men of South Paris and Norway, with some $500 for prize money.

Commercial pack is the chief feature, with some of the most excellent apples from the orchards on the rugged hills of old Oxford County, neatly arranged in barrels, boxes and EZY pack baskets. There are no plate exhibits, but a long table contains several varieties showing the uniformity of apples as they might appear in the containers. Among the individual specimens are those of C. R. King & Son, Irving E. Andrews, H. W. Porter, Frank Nottage, George Skinner, Edward A. Barker, all of South Paris; W. H. Conant, Buckfield; Samuel Richardson, Fryeburg; E. C. Wadsworth, Hiram; S. J. Spaulding & Son, Buckfield; F. H. Morse & Son, Waterford; O. N. Cox, Norway; Clinton Bisbee, Sumner; G. I. Conant, W. G. Conant, Hebron; E. B. Hersey, North Waterford, and Richard Jacobson, East Waterford.

Three excellent displays are neatly arranged. The Sunnyside Orchards, Buckfield; A. A. Conant, proprietor, has ten varieties of apples. Elm Dale Fruit Farm, West Paris, George H. Emmons, proprietor, is a conspicuous display, showing some thirty varieties with a colorful background of trout "mezzo" panels and deer heads from the studio of "Nash, of Maine", Norway. The Oxford Bears Fruit Growers' Association shows twelve baskets of nice apples all ready for delivery.

In one corner is the fountain of youth. Here is where Conant Bros. Co., of South Paris, dispense without charge pure sweet cider, pressed within a few hours. It is needless to state that this spot is the mecca for both sexes of all ages. Harry Conant, in charge, stated that the capacity of their presses it 4500 gallons in nine hours, that many shipments exceed 500 gallons in one lot and within a few days one tank car with a capacity of 8,000 gallons was sent away, filled to the dome. Public demand is for the one gallon glass jugs, sold to the big chain of grocery stores. He stated one "cheese" in their hydraulic press is the remains of sixty bushels of apples, hence its capacity may be imagined.

Niagara dusts and dusting machines, together with sprayers, are exhibited by A. W. Walker & Son, South Paris. Geo. Skinner of their sales service is handling this exhibit.

A. K. Gardner, crops specialst of the Extension Service, Orono, and J. H. Waring, professor of horticulture, Orono, are the judges, with county agent, H. F. Thomas, and George F. Eastman among the hustlers promoting the show.

This Thursday evening, commencing at 8 o'clock, Wilson H. Conant of Buckfield will speak on orchard management and general discussion will follow. A. K. Gardner will lead in a round table discussion on "Spraying and Dusting."

The Farm Bureau will have the time Friday, beginning at 10:30 a. m. The program includes business meeting, reports, and extension programs. Dinner at noon, served by the ladies of Paris Grange.

Admission to the hall during the show is free and the show is well worth the time to look over.

An old landmark, the weather beaten oak, at the house of Oscar F. Swan, the Jacob Nichols place, on High St., has been cut down. Only a few limbs near its top were alive and the trunk was a mere shell so the age could not be determined. Historians writing about South Paris village in 1820 have described "oaks on the Jacob Nichols place." It is possible this old timer may have been one of the number mentioned.

FARM BUREAU NEWS

Membership Drive On. Norway Made Good Headway

The Farm Bureau membership drive for members in Oxford County has started and results thus far are exceedingly good. Norway, the first community to hold its committee meeting, secured, at the end of the first day's drive, over 75% renewals, both in the women's and men's divisions. They had also secured up to that time, three new members in each division. Two solicitors in the men's division had not been heard from when the report was made. Fred G. Dunn, one of the solicitors, was first to make returns to the Farm Bureau office. He secured all renewals. Norway division is the largest in the county, having fifty-three male members in 1925, and twenty-one in the women's divisions. Indications now point to exceeding the enrollment in both divisions. Norway solicitors reported thus far, one instance in each of the divisions of non-renewals.

South Paris is busy putting on their campaign and already Mrs. Roscoe Bennett has made returns to the office. It is expected, by the latter part of this week, that the campaign will be over in these two towns.

North Paris has also held their meeting and are at work making a canvass for renewals and new members. Indications are now that they will equal or exceed their membership for 1925.

Committee meetings are being held in other communities. It is expected that they will return as good results as are being secured in the Norway community.

PRESENTED WITH OLD BOOKS

Howard Shaw of South Paris, the musician, hands us a couple of bound volumes of Harper's New Magazine. One is Vol. IX, June to December, 1854, and the other Vol. XVII. covering the same period in 1858.

There is a marked difference in the looks of these pages from those of the present day. Especially so the pictures. The first volume has few pictures compared even with the one printed four years later. Both are line drawings and nicely printed.

We extend thanks to Mrs. Lillian Shaw, Howard's mother, who presents us the books. Will put them in our collection of old books.

Miss Marion Witham, who is teaching school in the Chapel district, visited her parents, Mr. and Mrs. Henry H. Witham, of Crowley's Junction, and attended the teacher's convention, at Portland.

Old timers are commenting on the weather for October. Early snow, ground frozen at an unusual depth, for the season, and a long continued cold spell, are some of the unseasonable things mentioned. One observer states that corn husks were thick and tough, hence a cold winter may be expected. The fact that squirrels are storing large supplies of food, is said to be another forerunner of extreme cold and a long season. The goose-bone weather prophets will report their findings after the Thanksgiving feast.

C. B. Cummings & Sons Co., have bought land on the corner of Sumner and Cottage streets and erecting a store house 30x144 feet, for dowels. It will have a metal roof and be divided into two rooms with wall for protection against fire.

H. Walter Brown returned from Portland, Friday afternoon, where he had been treated for an ulcer in his ear. He underwent a slight operation at the St. Barnabas hospital.

George H. Bennett returned from Portland, Monday, after a visit of ten days with his sister, Mrs. Julia Saylor. On Thursday evening he was among the guests at a Hallowe'en party and housewarming, on Veranda St., when a group of friends made merry.

ABOUT TOWN

"Whiting's Column" is one of the best features of the Boston Daily Herald. There is no writer in the daily press who is quite his equal. I have read his "column" with the greatest delight ever since it was commenced. When in his comment on Mellie Dunham's fiddling he says that he never reads the Advertiser without finding something in it worth while, it is a great compliment for the paper. Long may he flourish to help make the Herald the leading newspaper of New England, and may he continue to find the Advertiser worth reading.

Mrs. Annie Z. Plummer's poem, "The Hills of Maine," which appears in another column, is of exceptional merit, and will undoubtedly be extensively copied in the press of the state and widely read. Mrs. Plummer is living with her daughter, Mrs. M. Scalar Stephens, at Norway Lake. She was born near West Paris. Her parents were Samuel D. and Esther (Penley) Marshall. Mrs. Plummer is a lady of culture and refinement, admired and loved by those who know her intimately. The poem is taken from a little booklet, presented to the writer and on the cover of which is a painting by her own hand, of a landscape view with hills in the background, appropriate to it. It is worthy of a place in "Illustrated Oxford County,"—a chapter designed for the county history.

An audience of from 75 to 80 heard with great commendation the stirring sermon of Rev. Mr. Pearson, at the Methodist Church, last Sunday forenoon. Evidently the good man had been greatly moved at the scandals about the State's Prison, for in his petition to the Throne of Grace, he earnestly prayed for the Governor and that he "might go forward unflinchingly in the path of duty, and fearlessly uncover and rebuke sin." His discourse dwelt largely on the failings and selfishness of the patriarch Jacob and pointing out lessons to be learned from his life. In one of his most stirring and telling periods, he said that there was a great need of a revival of righteousness in society; in politics; in educational matters, and in the church. All greatly enjoyed the discourse.

Tony Young has been among us for many years. For a period he was in the service of Dr. B. F. Bradbury, after which he went to the Beals Inn, where he has continued to hold sway to the present time. Tony was reared down South among the Pelicans of Louisiana. Somehow he likes up North with the Yankees, and who of us doesn't like Tony? He can tell a good story if he chooses to. The following exceptionally fine one may not have happened during his sway at the hotel, but I'm going to lay its production to him. The most of us knew Del Gerry, now among the drummers who have passed over the River to the Other Side. He had a peculiar guttural voice that called attention to whatever he said. Another Knight of the Road was descanting on the degeneracy of the times at the hotel one evening, with Del as chief listener, although there were a number of others in the office, smoking, telling stories and playing games. Said this voluble party, "The times are getting very bad." "Yes, yes, that is so," said Del. "The rich are getting richer and the poor poorer." "That's so, that's so," ejaculated Del. "The few are gobbling up everything insight." "Yes, yes." Del interrupted. "And the few have the bulk of the brains." "That's so, that's so," said Del eagerly. "While the great mass are unfortunate." "I'm one of the unfortunate ones." This brought out an emphatic approval from his listener, who so rapidly followed the speaker, approvingly, without catching the full import of the last statement. But the bystanders had caught on and the general shout of laughter that went up brought the tirade to an abrupt termination.

I am fain to believe that much of the success of our business men is due to their faithful and efficient clerks, and what village can produce better ones than ours? I do not know, except in a general way, but a very few of them—nothing but praise has ever reached me. If they have any faults, I do not care to see or hear about them, and I take off my hat to them. And what fine clerks, particularly the two dry goods stores have, I have already written of Fred S. Brown. He is of our younger business men. His competitor, next door, Mr. Merchant, is in the same business. He always looks as if he came right out of a "band box," as the old saying used to be. Without levity it may truly be said that he is a polished gentleman and a good citizen. But I started out to mention some of the clerks. Mrs. Kate Bradbury I knew as a scholar in our schools. She was the daughter of Frank T. Pike. She has faithfully served as a clerk in the Smiley—Brown, Buck Co., now the Fred S. Brown store, for twenty years, and deserves the commendation and praise she receives. Mrs. Christina Burnell was born on Cape Breton Island, once famous as having a fortress at Louisburg, which was captured by the New Englanders, one hundred and eighty years ago, she is a fine clerk and one of the beauties of the village.

In Mr. Merchant's store are two clerks that I know: Mrs. Harriet W. Porter is the daughter of Dea. Nathan W. and Elizabeth (Noyes) Millett. No better family ever lived here. The Milletts have always beeen considered of the first families in town. She is a very efficient clerk and much liked by all.

Miss Ruth Stuart has been a clerk in this store for many years. I have known her from a small girl. She is a general favorite and one of the beauties of the "Twin Towns."

Miss Mercy E. Millett, an older sister of Mrs. Harriett W. Porter, is one of the best dispositioned and smartest ladies of the village. She has been a clerk in the Norway National Bank for many years and one of the pillars of the Baptist Church. Miss Millett is a general favorite with all who know her.

—C. F. Whitman.

There was a large attendance of the Barton Reading Club for a musical afternoon, October 30, at Mrs. Pendexter's. Selections o the Steinway grand, with Ampico attachment, and on the victrola, interspersed with various explanations and comments by the hostess were much enjoyed through a long and diversified program. November 19, George R. Howe will address the Club, subject; "Some features of nature close to us."

School were on a vacation Thursday and Friday; for the teachers to attend the state convention, at Portland.

Mrs. Elsid Mattor attended the Maine Teachers' Convention at Portland and returned home Friday evening. Her mother, Mrs. Charles Turner, of Ellsworth, accompanied her, to remain over the week end. On Saturday, Mr. Turner and a party including, among others, Mrs. Allie Royal, of Ellsworth, motored here, returning home Sunday.

George M. Batchelder of Hazelhurst Farm, Norway Lake, was relieved of a spare tire, tube and rim, Friday night. He attended the Moose gathering and his car was parked near the Grange Hall, the spare was fastened to the running board with rawhide straps. The straps were cut and the property easily removed.

MILLETTVILLE AND CROCKETT RIDGE

Col. Mellie Dunham is enjoying his notoriety with his fiddle as champion of Maine; his wife finds her enjoyment in a different way. She has made several trips to Ketchum, hunting, and enjoying the autoing. Mellie thinks an auto is all right to get there in (since it got him to Lewiston "to bring home the bacon"), but he'd rather fiddle beside a warm fire, or better still at an entertainment, or in a theatre enjoying the rousing applause that greets him, than to stand in the receiving line as President of the United States. "Baby Thelma," at the Harvest Supper knew what he was thinking of!

Miss Smith, of Fryeburg, is visiting her aunts, Mrs. Elinor Buck and Mrs. Emily Abbott, and her cousin, Arthur Buck and wife, at Crockett Ridge, this week.

Mrs. S. I. Jackson and party called, Thursday, on Mr. and Mrs. Scott Patterson, on their way to Portland. On their return trip, they had a very bad blow out in front of Charles Stanton's. It was dark and very cold, cars after cars sped by, but not a man offered assistance. Ernest Stanton left his milking and came to their rescue and started them home with grateful hearts, though he refused other remuneration. "It's a lucky thing it didn't happen in one of the long stretches of wooded roads, else they might have stayed all night, trying to start the bolts on the disabled wheel rim. Mr. Stanton had never had any previous experience in changing a tire, but Mrs. Jackson knew how it should be done, but lacked the muscular ability, as the bolts were set too hard, and she had no lights at the side to work by. Moral: "Don't stay out after dark."

Dorris Bradlee is very happy in her second raise with the Schraffts people in Boston, and feels less homesick for Norway, as she climbs the ladder of success, though her thoughts return each week as she writes home.

Foster Jackson, who owns the Witt Hill farm, in Millettville, has moved again, having sold his stand in Oxford to Will Glover and bought on Allen Hill. Once having lived in Millettville can he be happy elsewhere? But "Money, Money" is the goal now, and we hear he made a good sale.

Rec., A Hallowe'en Devision in the Graveyard.....Eva M. Jackson
Closing Song.....Crockett Ridge School

The Club members then served pumpkin pie, doughnuts, cookies and cocoa to the children, teachers, parents and friends. A social time followed with the usual bobbing for apples and doughnut eating races, but the fun really began when the blueberry pie race came off; or rather it didn't come off, that is, the pie didn't for the contestants were smeared from neck to knees, as they had to lie flat on the floor with hands tied behind them, and eat a quarter of a pie from a plate. Mellie then got out his celebrated fiddle and played for dancing 'till a late hour. A collection was taken for the two schools, but as last year, the Millettville School held a social and earned funds for the school, they thought it no more than fair that the whole collection this year should go to Crockett Ridge School.

Miss Robinson, teacher at Crockett Ridge, went by auto to Portland, Wednesday afternoon to attend Convention. Miss Coy from Millettville went by train with Miss Perkins of the Oxford Schools, on Wednesday evening, and returned Saturday. Miss Verna Westleigh of the fifth grade village school, drove back and forth each day to the sessions. Her mother and step-father, Mr. and Mrs. Harry Jackson, and Mrs. Frank Millett went with her the first day, and enjoyed the concert in City Hall by the Portland Schools. They all pronounced it a very enjoyable and instructive Convention. School opened Monday, after the vacation with warmer weather, more as it should be for this season of the year.

Thursday, Oct. 29th, Mrs. S. I. Jackson and daughter, Eva Marion, went to spend the day with their new little granddaughter and niece at Woodfords, Portland. They found the little lady had grown even in the ten days since they motored in before to see her, and was more wonderful than ever. Baby's mother was not as well as they had hoped to find her, though able to take a drive into the city to do an errand, with them. Mrs. Rust Jackson also took the drive in to see them, and enjoyed her first taste of venison, at dinner. Grandpa Linscott had been hunting in Canada with a party from Atherton's Furniture Store and they had brought home two fine deer and a fine fox, also a Canadian turkey. Miss Mildred Bixby, a cousin of the Jackson boys, drove with them as far as Portland, as she wished to make Lowell to spend Hallowe'en with her father, as it was his birthday. She had been having a visit with the boys and their families in Millettville, enjoying two very fine entertainments in the one week's stay. "Maine Night" at Norway Grange and Harvest Supper at Universalist Church.

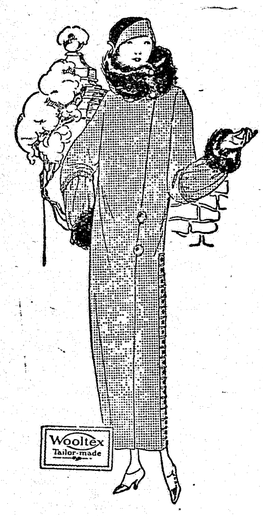

Winona Young spent the week end with her parents at Crockett Ridge, arriving Thursday night and returning, by auto, to Yarmouth Junction, to take the Bangor train there, Sunday afternoon. Two of her classmates from Norway were fortunate to be invited to make the trip back with them, else they would have been traveling all night.

LAMP CHIMNEYS, CURLING IRONS AND BATHS

Electricity, since the building of Edison's first central station, has reconstructed mankind's whole scheme of existence. The United States has the best electric service in the world, and makes the widest use of it. It is being constantly improved and as electric and gas appliances are more widely used in the home, our standards of living advance, household work becomes easier and the American wife and mother has more time to devote to study and her children.

When we hear a lot about the wonders of the past, at a period when the family washing required two days of hard labor, when the old wood stove or coal furnace kept someone busy shoveling in fuel and carrying out ashes, when the lamps had to be filled and cleaned every day, toast made over hot coals which scorched one's face, hot water for a bath heated in a teakettle or a wash boiler and the curling iron covered with soot in a coal oil lamp, it is time to be thankful for the conveniences which electricity and gas have put into the modern home.

Publishers Promise Copy "Uncommon Americans"

The Bobbs-Merrill Company, publishers, Indianapolis, promises to send us a copy of Don C. Seitz' "Uncommon Americans" and requests a review of the same. We know what that means. They expect us to make favorable mention and advise our readers to buy it at $3.00 per copy.

This would have been easier, had we known it earlier. As it is, we have bought a copy of the book and paid cash for it. We had a curiosity to see if Mr. Seitz included in his Uncommons any of his Norway acquaintances. He did not. Hence we are disappointed.

He has a long list of uncommon performers in this vicinity. Plenty of good material for an interesting story. Maybe, sometime, he'll write it. Let us hope it will not be long delayed.

The book we purchased has 22 pictures in it, also that number of stories of the lives and doings of twenty men and two women who have made a mark in the big world. It was interestingly told and we read it from cover to cover, almost at one sitting. We liked it.

And owning it, as stated above, we let it out on the street to be absorbed by our friends. It is now getting in its work. John Woodman and Elgin Greenleaf have read it; Judge Whitman now has it—Charles Sargent has spoken for it, so have Garfield Walker, Larry Carroll, Molcolm Gregg, and others.

The book will return when the ice goes out next spring. It will be some worn and a little soiled, but it will come back and find a resting place with the other books given us by Mr. Seitz and his publishers.

When the promised book from the publishers arrives, we shall take it to Hugh Pendexter, the author, and try to sell it to him. We are told he does not use borrowed books.

Maybe he will want to swap one of his books for it. This can be done if sufficient boot is paid to make it a fair exchange. Thus we will get pay for this notice. You have to pinch pennies and crowd space these days to meet the ever increasing cost of postage.

"He Was a Slick Talker"

"For he talked me out of my savings, and he talked me into his worthless promotion. I had his guarantee that the company would buy back the stock at any time."

That is the experience of thousands of people—victims of the glib stock salesman.

Had they only known the facts—known that the promised big profits on a sure-thing promotion were only a dream, that dependable investment houses never "guarantee" to buy back their stock, they would never have lost their savings. But they didn't and they lost.

To those about to invest, the experience of others should serve as a warning.

Know the facts—know for certainty whether or not an investment is safe, and the income assured.

Consult your banker. He will assist you in making your investments.

A MESSAGE TO THE MERCHANTS OF NORWAY-SOUTH PARIS

CONTRIBUTED BY ONE OF THEM

Do you often bemoan the fact that the buying public of your locality is going to other towns to trade, or is sending away to some large city store or mail-order house for the goods that you could furnish for them?

Do you feel that those people are doing you and your city an injustice by doing this?

Do you ever go to your Luncheon Club meetings and talk this matter over with your fellow merchants?

Do you subscribe to methods and schemes to induce the buyers of your community to do their trading at home and thus help to build up the town?

Do you have special articles written up and published in your local paper explaining the whys and wherefores these people should not spend their money out of the community?

Aren't you kidding yourself unmercifully and don't know it?

And then, do you really believe all that you say to your fellow merchants and what they say to you, and do you and your family do your own buying at home, just as far as it is possible?

Get outside and look in, as the buyer does. Didn't the banker's wife and his children buy their fall coats in the cities? Didn't the grocer's wife also do likewise?

Didn't the Get-Together-And-Trade-At-Home bunch buy their Fourth of July fireworks from an outside man when one of the local merchant's clerks had called upon the buyer three or four times previous to the outside man's appearance, with exactly the same goods, from exactly the same place and at exactly the same price?

Didn't one of the same clerks go to the head man of the Buy-At-Home Club (a banker) with a line of calendars, and didn't the banker assure him that they would not buy for at least six months? And didn't this self-same banker buy his calenders from an outside man the very next day?

Didn't the secretary of this club get prices on certain advertising matter to use for a celebration which was to be held and didn't he immediately order the goods from an outside party, and pay just a little higher price for the same goods? Didn't the son of the president buy class buttons from a catalog house?

Didn't a certain man's employer, with whom he had been working for ten years, buy his supply of calenders from an out-of-town man, when his employee had his calender grip open at his employer's elbow?

Didn't he talk strong for home trade before and immediately following this purchase?

Didn't the garage member of the club buy all his shoes out of town?

Didn't the shoe man buy his shirts from a peddlar?

Doesn't your wife say, I can do better in R. W." (18 miles away)?

Don't your friends say, "They sure have a better selection of clothes in R. W."?

And when they say that, what do you say? Do you say. "I guess you can, our merchants are not quite up to the mark"; or do you say, "Stick to the home town—suggest improvements if things are wrong—be patriotic"? Well, I wonder!

Do you know that the big finance man of a Buy-At-Home Club put out a large amount of advertising to induce the farmer to trade at home, and bought this advertising out of town, when there were three printing establishments located in his own home town?

Do you know that the banks of a certain town that had a Buy-At-Home Club opened their doors one hour earlier in the morning and closed one hour earlier in the afternoon, for the accommodation of the farmers who seldom reached town until the afternoon?

If you don't know, you ought to, that when you, or your wife, or any of your family buys anything out of town other people know it.

You must realize that the freight man is not quite totally blind, deaf and dumb.

What does he say when you remark that there is a pile of freight coming into your little town?

I'll tell you. He says, " Yes, you bet there is, but there's a lot of it that goes to the private houses, and it goes to the business men's houses, too."

How do you like that?

Then you know the mailman can also talk. He does so.

So does the expressman.

You bet they do.

Why shouldn't they tell? Isn't it a good joke that the "Home Boosters" should be buying outside?

Remember, too, that they are among the customers whom the Boosters are trying to flim-flam into getting others to do what they don't do themselves. That makes them sore and they want to get even.

Maybe you think you can hide your guilt by carrying the goods home. Don't fool yourself. When you beat it to and from the station with a satchel in your hand, people get mighty curious. If their curiosity isn't satisfied, they get suspicious. You can't get away with it—not for long, anyway.

The ostrich is a very peculiar and foolish bird. He sticks his head deep down in the sand and thinks he's entirely hidden, although a very large and vunerable part of his anatomy is exposed to the derision, contempt and attack of all beholders.

Just so the business man, who constantly pleads for home buying and then himself buys goods away from home, makes himself an object of contempt and ridicule with his customers.—Farm Journal Merchant's Supplement.

Do you do that and allow your wife and children to do it?
Think it over in your undisturbed and peaceful hours.
We'll pay space rates to print your conclusions.

STOW

Mrs. Walter McKeen remains about the same.

Wallace Guptill has been working on the road east of the river.

Merton Eastman is nearly done patroling on the road for this year.

Erville Fernald has been working in the corn shop.

Sidney Sanborn is home for a few days, fixing up his place for the winter. He will go to Madison, N. H., soon, to work.

Our first selectman finds himself very busy during the hunting season.

Frank Bickford's son-in-law, Alfred Locke, has been selling some very nice fish.

Samuel Bryant, who has been away visiting, returned home recently.

Mr. and Mrs. Fred N. Harriman and daughter, Alta, were visiting relatives in the place, over Sunday, Oct. 25.

William Sanborn has been having serious trouble with his eye. A flying piece of stone lodged in the pupil of his eye and it was some time before the doctor could find it. It is much better now, although his sight is still blurred.

John O. Eastman's children are attending the Fryeburg Academy again this fall.

A number of our townspeople helped the North Fryeburg band celebrate its fifth anniversary recently, at Red Men's Hall, North Fryeburg. There was a large gathering at the oyster stew supper and band concert. Miss Morgan played two violin solos and Jordan's Orchestra furnished the music for a dance.

The dances at Stow every Friday night continue to be jolly times. Fred N. Harmon won the prize, Friday, Oct. 23, which was a box of marshmallows.

TWICE IN THIS WOMAN'S LIFE

Lydia E. Pinkham's Vegetable Compound Helped Her from Sickness to Health

Ellensburg, Washington. — "When I was first coming into womanhood I suffered terribly every month. My mother did everything she could think of, so she took me to several doctors and they only helped me a little. Mother was talking to another lady about my condition and she told mother of Lydia E. Pinkham's Vegetable Compound. Mother got me six bottles and at the end of the first month I was much better, so I kept on taking it until I had no more pains. When I got married and had my first child I was in terrible pain so that it was impossible for me to do my housework. I thought of how the Vegetable Compound had been of so much benefit to me when I was a girl, so I went to Perier's Drug Store and got six bottles. It sure did help me and I still take it. I am a well woman today and I can't say too much about Lydia E. Pinkham's Vegetable Compound. I will answer any letter that comes to me to answer about what your medicine has done for me." — Mrs. WILLIAM CARVER, R. F. D. No. 2, Ellensburg, Washington.

Take three or four teaspoonfuls of the good old "L. F." THE FRYEBURG FLIVER

FLIVER SAYINGS HAVE SUCH WEIGHT, WE'LL GLADLY SEND IT TO YOU BY FREIGHT

Edited by C. R. Mills, who is Solely Responsible

Editorial

The Fryeburg Fliver is published semi-annually or oftener, by the Fliver Publishing Co., Fliver Bldg., Fryeburg, Maine. It is not entered as second class mail matter, as we think that is a cruel way to treat a first class periodical, like the Fliver.

If you can't find the Fliver at your news stand, it is probably because the dealer is sold out; in such a case, don't bawl him out, (as it is difficult for a dealer to anticipate the tremendous sales of the Fliver) but communicate with us, at once, and we will enter your name on our subscription list, which has a larger circulation than Guy Whitney.

Better send a cash subscription for a good long term; then you will have the satisfaction of knowing that you are paid up.

Janitor—C. Ruric Mills.

Bellows From Brownfield

It remains to be proved, whether or not, Lewis Danforth, the silver throated orator, from Brownfield, can make himself heard while the "corn shaker" is in operation. This is a moot question, but it is our personal belief that Lewis will "drown out" the "shaker" entirely.

Will Bennett is harvesting his beets. He will use them for the same purpose that some folks use elder-berries. Beats all!

It is a poor day, when Poor and Day don't arrive at the Baxter plant, on time.

There are plenty of chickens in Brownfield, but only one "Hen" Wing.

Notes

Wise guys eat our cakes and pies,
No aches, in our jelly cakes.

Now is the time and this is the place
To buy them things that's trimmed with lace
You'd hardly beat our hose display,
At P. O. Corner, on a windy day.

Wear our suspenders and avoid suspense,
Our ladies' knickers are immense.

Mutton, Veal and Pigs' Feet
Our Hamburg Steak is good and ripe,
We also carry Honeycomb Tripe.

Note: We wrap our liver with the Fryeburg Fliver.

Attention ladies; A shingle bob won't come amiss; in fact it sometimes "becomes" a Mrs.

The Fryeburg Fliver is hard to beat,
It's known as the country's leading sheet,
'Tis read by the humble and elite,
And the editor's noted for his small feet.
Each issue you'll find, is all complete,
You'll find it on sale at the county seat;
The type is large and the printing's neat,
The daily news is discussed with heat,
No other 'weekly' can compete,
A lot of them are obsolete;
To beat the Fliver they'd have to cheat.
Each new subscriber, we're glad to greet,
We know our paper will prove a treat.
The ladies think their columns sweet;
Send your subscription; the mails are fleet,
We've nothing but snowballs left to eat.

Fliverisms

Oct. 10th; the first snow flurries, but we won't include that amongst our worries.

"Chip" and "Mack" Watt reported cold weather at No. Conway, last night. "Chip thought a certain Miss, should have warm wraps, (the night being so cold) so he wrapped her in his arms and got his ears rapped for his pains.

Boner R. C. Ridlon has started a glee club, at his apartments, at Rice Hotel. Lucky if proprietor Tom, does not take after the glee club with a war club.

Edso J. Watt, formerly from Antigonish, is watching half the night at the Fliver office. Ed sits up the better half, with his "better half."

George Chase of shaker fame
Is an easy lad to please,
He shakes with joy while shaking corn,
It's hard to make him (sure's you're born)
Refrain from shaking peas.

Smith St. Smiles

The Conway Box Co., is using up a large amount of good pine lumber each week, but the quality of their boxes remains the same.

C. D. Merrill (the old cut up) is cutting up as usual; but no one is fitter than "Hutch" on the fitters; Knox "knocks" the help in general, and "Rich" is getting rich shoveling shavings.

Bill Hughey is hewing away at his job, and Jess is jes' right for a nailer; Harold Wentworth does most of the filing, but Walter Burnell does some filing in the office.

If you want a box,
Just call on Knox,
The price? Be sure and get it.
If you order first,
Prepare for the worst,
If not, you might regret it.

Fryeburg Stock Market

Springer's Bread: Rising but apt to slump.

Brackett's Ice: Firm but rather a cold proposition.

Jewett's Lunch: Stock rapidly going down. Note: The preffered may be in apple pie order but we would not advise our subscribers to invest too heavily in 'Jewett's Sinkers," which they are trying to manipulate as a sinking fund, and might prove disastrous to those who are greedy in gobbling up this stock.

Shirley's Milk; Company owns the cream of this stock. Public may be able to bottle a little of this stock, but it looks a little blue to them.

S. Ladd's Petticoat Pr'f'd. Petticoat in small demand. Subscribers are switching to Woodside's Knickers.

Fryeburg Electric; See rating in "Current Events."

Conway; Don't pine too much for his stock, though it may spruce up, if they can smooth up the rough places.

A WELL PAVED NATION

More than 900,000,000 square yards of asphalt paving have been laid on roads and streets of America, much of it from 25 to 35 years ago and still giving good service. A census of paved yardage of city streets in the United States in 1923 showed that in 290 leading cities reporting, 53.9 per cent of all paving of a type of asphalt. Asphalt is the oldest, waterproof, cementing medium known to man. No wonder we are a nation of paved highways, for we have large supplies of this material.

IS IT FAIR TO THE PRINTERS?

The whole principle involved in the subject of government ownership of industry is wrapped up in the government printing and selling stamped envelopes, the only absolutely socialistic movement that the government has gone into.

To the everlasting glory of the American press and particularly the rural press, it has stood solidly as a matter of principle and without price against all encroachments of government which would tend to break down or destroy American ideals of freedom and the right of exercising individual initiative and enterprise. It has done this in the face of government competition and government ownership in the printing industry and in spite of the fact that a large percentage of stores, banks, doctors, lawyers, and manufacturing institutions which would fight such competition in their own line of business, consistently fail to patronize the printing offices of the publishers from whom they expect protection when necessity arises.

On orders under 10,000 it is impossible for printers to furnish envelopes with a printed return address at a price to compete with the government. For amounts over 10,000, larger printers can produce printed envelopes far below government figures.

It is the small publisher and printer who is hurt worst by the government competition. This is the general rule in all lines of activity when government ownership is established. The more the government gets into the field of business, the more impossible it will become to eliminate the government printing of envelopes.

This problem affects not only the printers of this nation, but every individual who ever hopes to do anything besides draw pay in an official position.

BRYANT'S POND

Boom Woodstock

The town of Woodstock is looking up. In spite of the war and rumors of war, high taxes, low prices for milk, and a few other problems, the old town is steadily marching ahead. Business all over the U. S. A. is growing in volume and in the years of prosperity to follow, this little town is coming in for its full share.

Where can one find a more goodly community than this little town in the heart of the Oxford Hills. Beautiful forests, peaceful valleys, dotted here and there by prosperous looking farm homes, and our little village of Bryant's Pond, the center of the business and social activity of the surrounding country.

Progress may have seemed slow at times, but it has been sure. A splendid state highway through the entire length of the town and other highways, fast improving, an opera house, public library, grange hall, good sidewalks, a school building, the pride of the town, a whole street of beautiful new homes, on the Rumford road, these are only a few of the improvements within comparatively recent years.

We have our many summer cottages and boarding houses, which are being added to from year to year, making extra business during the tourist season for our farmers and merchants.

Within the past two years, tremendous changes have taken place, which promise much for the future. A big brick clothespin factory has been erected here and is doing a steadily increasing business. Last spring the Bryant's Pond Electric Co. established their plant here, and supply electric lights for the streets, public buildings and homes. Now the Central Maine Power Co. is building a high power line through town, bringing the super-power system to our very doors.

Surely things are looking up in Woodstock, and now is the time to make one united drive ahead, which will place our town on the map. There are many improvements that we need, some should not be put off any longer than necessary. For the safety of our school children, the sidewalk should, at least, be extended as far as the Baptist church, next season. Many improvements could be made and action taken, which would bring in more property and lead to a reduced tax rate, if our citizens could unite their efforts in an organization for this purpose.

What has become of our Chamber of Commerce and Village Improvement Society, that did such good work in years past? Cannot these organizations get together and then invite the whole town to join with them in a Woodstock Development Association? This would place our town in line with the progressive towns and cities in the great Develop Maine Movement.

Maine is in for the greatest forward movement in its history during the next few years. Woodstock can get its share of this prosperity. Drop our petty differences, unite our efforts for what we cannot accomplish alone. In the interests of our own pocket book, in the interests of our boys and birls, let us get together, and build Woodstock into a town that the whole of Maine will be proud of, a town that will be known far and wide for its high standing in all that is best in community life. We can do it. It's up to us.

Supreme Judicial Court

October Term

Court reached a final adjournment late Saturday, after a session of seventeen days, the last jury trial was finished Friday night and the jurors were discharged. The criminal docket lasted eight days, one verdict of not guilty was returned; one verdict of not guilty was directed by Justice Sturgis; and one case was nol prossed. A series of convictions for the rest came in regular order.

Gustav Heino's cases, charging the manufacture of liquor, were continued to the February term and bonds furnished for his appearance.

Thomas Langevin of Rumford was found guilty of liquor nuisance on the Fred Merrill place in Roxbury, near Roxbury Pond. Mr. Langevin hired the place from Mr. Merrill and paid rent for a term of two months. Officers went to the house on the night of July 18, when a dance was going on. They testified to seeing men drink from bottles and that there was loud shouting and disorderly conduct. After the festivities, officers, including Sheriff Erland C. Torrey, Deputies Ivan Stowe, Guy Caldwell and Frank Perkins, searched the premises and collected several bran sacks of beer bottles. Some contained a little beer. Four bottles full of beer were discovered under a robe in the shed. For the defense testimony was offered to show that Mr. Langevin sub-let the place to a Mrs. Hotham and her daughter. The women testified that the dance was not conducted by them, but other parties had hired the room and furnished the music.

Leo Patrick retracted his plea after a consultation with Judge McCarthy, who was assigned as his counsel, by the court. He pleaded guilty of illegal transportation.

When Will It Be Done?

The dent in the lakeside road wire fence, made four months ago by a car driver, whose neck it saved, has not been fixed yet. It spoils the symmetry of the scenery.

Saturday afternoon Will Abbott of So. Waterford called in and the conversation was something like this: "I don't like those items you are putting in the paper about the dent in the fence on the hill road. It is like this: the man who was driving my truck four months ago accidentally ran into the wire fence. I took the matter up with the road commissioner knowing he had the things to do with and knew how to fix it better than I. He said he would fix it, and I would see the bill was paid. The commissioner also said he would attend to it sometime when working in that section, so to save expense. I feel I am free from obligations in the matter and when I receive the bill will pay it."
